

Accelerate Enterprise Imaging with Seamless Integration and Powerful Workflow Design

www.dcmsys.com (415) 684-8790 sales@dcmsys.com

THE UNIFIER ADVANTAGE

- Best price-to-performance technology trusted by top healthcare enterprises, government agencies, and imaging partners
- Vendor-neutral, IHE compliant framework for seamless integration
- Configurable, lite Linux-based appliance allows for secure, instant updates
- Scales horizontally where multiple units can cluster
- Guaranteed encryption of all outgoing traffic
- Flexible deployment options—on-premise, private cloud, hybrid cloud, and leading cloud providers

FEATURED MODULES

Workflow

- Intelligent Routing
- DICOM Modality Worklist
- Unified Worklist
- Image Sharing
- Relevant Priors
- Load Balancer
- Patient Match
- Tag Morphing
- Enterprise Viewer
- Visible Light Imaging

Interoperability

- HL7 Integration
- Restful API
- FHIR Integration
- LUA Scripting
- DMWL Proxy
- Q/R Proxy

AI On-Ramp

- De-Identification
- AI Conductor

FUNCTIONALITY

- Interoperability between heterogeneous information systems and any DICOM and HL7 enabled devices
- Route by any standard or private DICOM tag, by date, time, and cache data for later delivery
- Route using any HL7 field or a group of fields as routing triggers.
- Modality worklist with HL7 broker and interface engine DICOM PACS proxy
- Powerful enterprise-wide configuration management, logging, and auditing for HIPAA
- User-friendly WebGUI configuration tools and set-up wizard
- Performs incomplete study delivery checks

LEADING HEALTHCARE CUSTOMERS

66

"The Unifier platform has enabled SCPMG to easily manage a large number of DICOM routers. We can maximize functionality and update the business logic of over 2,500 modalities in our network."

— Bruce W. Hoel, Imaging Solutions Architect, SCPMG Kaiser Permanente

"Without DICOM Systems, we would need an army of vendor support and analysts."

— Trevor Walker, Principal Systems Analyst, Stanford Health Care
